CLINICAL PRACTICE

PSYCHOSOCIAL CARE

**INSTRUCTIONS**

Please consider the evidence found in the records and, through your interview with the physician, the appropriateness of the physician's actions in counselling their patients. This includes patient visits for general counselling, psychotherapy sessions, and patient support in reference to specific clinical situations. You should also consider the appropriateness of referrals to social services (e.g. public health nurse, home care, CCAC, Meals on Wheels), as well as to patient support groups and services that are available in the community (e.g. AA, Alzheimer's Society of Ontario).
