---------------------------------------	---------------------------------------------------------------------------------------------------------------------------

The privilege of self-governance in medicine demands a steadfast commitment to regulating Ontario's doctors and physician assistants with transparency, accountability, and an unwavering focus on the public interest. It also requires the CPSO to communicate openly and effectively with members and the public while fulfilling its regulatory responsibilities with compassion and sensitivity.

In recent years, the CPSO's governance modernization project has established a strong, forward-thinking model that positions the organization to deliver on its mission of Trusted Doctors Providing Great Care. The 2025 election process represents a vital step in continuing this transformative work. As Board Chair in 2024, I had the honor of contributing to this important initiative. My experience, coupled with my deep understanding of CPSO's priorities, uniquely equips me to help see this work through to completion during a final three-year term on the Board of Directors.

I am a practicing community emergency physician and medical leader with extensive experience in Child Protection, Mental Health and Addictions, and working with marginalized and equity-seeking groups. As a person of color, I bring lived experience of overcoming prejudice and poverty, which has strengthened my commitment to social justice—especially in health care.

In addition to my clinical and advocacy experience, I offer significant expertise in corporate governance. I am a member of the Institute of Corporate Directors and a certified Chartered Director. I have served on both public and private boards, developed strong, positive relationships with my CPSO Board colleagues, and contributed actively to many CPSO Committees.

If elected, I will continue to serve with integrity, thoughtfulness, and diligence, supporting CPSO's mission to protect the public and foster excellence within the profession.
